Physical Requirements of Physical Training and Assessments**Box 4**

Basic Law Enforcement Certification includes 25 hours of physical fitness testing and activities. During their first days at the academy, students participate in a fitness assessment which includes sit-ups, push-ups, and a 1.5 mile run. Students who register a BP of 160/100, or higher, at this assessment **WILL NOT** be allowed to participate and will be referred to their physician for further testing. Thereafter, the students participate in fitness sessions which include running/walking (2-5 miles maximum), calisthenics, including push ups, sit ups, leg lifts and other strength improving exercises, circuit training, aerobics, conditioning using jump ropes, resistance bands, and medicine balls, team sports, such as volleyball and basketball. At the conclusion of the academy, students again complete the fitness assessment to compare these results with their first week performance.

Revised 2-2012

Physical Requirements for Defensive Tactics Training**Box 5**

Defensive Tactics Training is conducted throughout the academy, much of this training involves unarmed defense and close combat situations. Students will be involved in grappling, and deliver and receive strikes and kicks in dynamic scenarios, requiring a high level of physical exertion and body flexibility. Students will practice and demonstrate techniques involving pressure point application to sensitive areas of the body, dynamic forward, backward and lateral movements, and twisting and striking while swinging a baton. Handcuffing techniques will be performed, requiring flexibility and full range of movement of the wrist, arm and shoulder.

Revised 6-2011

Physical Requirements for Practical Exercises**Box 6**

Students will be required to react to realistic scenarios involving simulated physical and weapon attacks in which they are expected to apprehend suspects, control resistance and restrain subjects. Officers will use training weapons, including firearms. During scenarios students may be required to run, crouch, crawl, kneel and fire handguns from various positions. Required movements will include entering and exiting a vehicle repeatedly, kneeling and standing for prolonged periods of time, and reaction to spontaneous threat situations with physical tactics and firearms skills that have already been taught. Scenarios will require sudden stops, starts and turns on hard surfaces. Scenarios may occur in all environments, such as inclement weather, hard surfaces, or stairwells.

Physical Requirements of Emergency Vehicle Operation Training**Box 7**

Each student must successfully complete Emergency Vehicle Operation Training (EVOC), an intensive battery of repeated driving drills conducted over one continuous five-day period. This battery subjects the student to several physically demanding maneuvers. Students drive in reverse for considerable distances, and perform reverse driving exercises that require significant rapid turns of the upper body and hips. The course also requires repeated sudden braking, stopping, and turning and requires a student to make strenuous, visual safety checks. These checks require considerable twisting of the head, neck, and upper body.

Physical Requirements of Firearms Training**Box 8**

Successful completion of firearms training is required for certification as a Law Enforcement Officer. Firearm training consists of intense live-fire exercises and dry-fire drills. Each student will shoot approximately 1200 rounds from a handgun and approximately 60 rounds from a shotgun during the course of the academy. As part of the training, each student must shoot a qualifying score with both firearms. Successful firearms training requires the requisite fine motor skills to safely manipulate and shoot loaded firearms with both dominant and non-dominant hands and fingers. Most shooting is done with the dominant hand. Students must successfully and safely manipulate trigger pulls of varying weight and physically support a loaded firearm from a variety of shooting stances and positions. Students are required to shoot from a standing, kneeling, and prone position and perform numerous repetitions transitioning from a standing to kneeling position while safely holding a loaded firearm. Training movements require students to move forward, backward and laterally, be able to see and identify hostile and non-hostile targets in various lighting conditions, and simulate high risk scenarios that include running, and tactical movements such as kneeling, crouching, and crawling. Students must have the ability to hear range commands while wearing hearing protection (ear plugs or ear muffs).
